#### HISTORY

Three generations of Gainey's have shaped the ranch into a thriving estate of innovation while preserving the heritage of the region. In the 1980's, the Gainey's were among the first to plant vines and build a winery in the area. Later, they were the first to have vineyard holdings in both Santa Ynez Valley and the Sta. Rita Hills appellation. Dan Gainey, along with a few others, was influential in developing the Santa Rita Hills appellation.
